# Job Description

## Senior Financial Systems Analyst / Developer / Report Writer

### Reports to Financial Systems Manager

The purpose of this position is to assist in the design and implementation of the core financial system framework, including processes and reporting, to enable the team to expand the service offering throughout the Group, and to work closely with one of our largest clients, to support with their own IT strategy.

### Key responsibilities:

- + Interpretation of reporting, accounting and administration requirements and configuration of the systems to meet the demands for a high-profile client, including but not limited to, requirement gathering / documentation, system configuration and report writing
- + Assist with the application development process, to include identifying requirements and project management
- + Ensure documentation is compiled around developments and testing evidence be produced to provide support for changes being progressed through environments
- + Support the client teams in their understanding of processes utilising the application and providing documentation when relevant
- + Meet directly with representatives from the client and client team to agree upon developments and priorities
- + Work effectively with all members of the team, helping to build a supportive, disciplined, focused team environment, considering the areas of development that can be provided to more junior members of the team
- + Assist with reviews and provide feedback and resolving support tickets when required

### Skills, knowledge, expertise:

- + Strong technical financial services industry knowledge
- + 4 years' experience of report writing (e.g. SSRS, Business Objects, Front Reports)
- + Experience of programming languages (e.g. SQL, C#.Net, VB.Net, VBA, SAS)
- + Experience of eFront an advantage (FIA ideal)
- + Accountancy knowledge is essential and an accounting qualification (part or fully qualified) is desirable but not required
- + Forward thinker, with strong problem-solving skills and methodical approach
